If during the last 5 years, you have had breaks in your scientific career longer than 90 days, you may submit your scientific track record from the period extended by the total time of all breaks. Career breaks are understood as:

1. Military service or civil service,
2. Long-term illness (yours or your close family member's),
3. Paternity leave,
4. Maternity leave.

For cases 1-3, you may describe your achievement from the period extended by the documented period of absence from work. For case 4, the 5-year period is extended by 18 months for each child, even if your absence was shorter. However, if, in this case, your absence from work was longer, you can get an extension for the documented period of the actual absence.

In case of extension, please complete the "career breaks" section of your CV and attach supporting documents in the "Other attachment" section.
